

Get the bar in the middle every time using Paragon's NEW Centralizers

- Easy assembly & installation saving labor costs (simply snap (2) rings together & wire tie to the bar)
- Made from lightweight, durable recycled plastic which will not rust or corrode.
- Thinner profile slips through grout with ease.
- Currently available in 11" & 15" covering most auger cast piles & drilled shafts.
- Engineered for #7-#11 reinforcing bar with 1/4" off of center variance.
